

Annual Asbestos Management Plan Notification

To: Paul Cuffee Lower School Community
From: Jeffrey Dronzek, Business Manager
Subject: ANNUAL ASBESTOS MANAGEMENT PLAN NOTIFICATION
Date: 10-7-20

I am pleased to report that any and all hazardous material that was identified in the hazardous material survey conducted prior to the construction/renovation of this building for a school was abated or encapsulated.

A licensed abatement contractor removed and properly disposed of all asbestos containing material that was identified, and further either removed from the site or covered existing surfaces with new material to completely encapsulate any identified lead in the building.

Certification that all new construction was free of either asbestos or lead or any other known hazardous substances was provided to the Paul Cuffee School when an accredited SEA inspector completed the site inspection on July 19, 2003.

If you have any questions, please contact me at 453-2626.

To: Paul Cuffee Middle School Community
From: Jeffrey Dronzek, Business Manager
Subject: Notification of AVAILABILITY OF ASBESTOS MANAGEMENT PLAN
Date: 10-7-20

This is to inform all staff, students, and parents that the requirements of the Asbestos Hazard Emergency Response Act (AHERA) 40 CFR Part 763 have been fulfilled in regards to the inspection of the Paul Cuffee Middle School building for asbestos containing materials.

A management plan has been developed by an accredited asbestos planner and is on file in the school's administrative office. This document contains information concerning asbestos containing materials identified to be present in this school building.

If you have any questions concerning the content of this document, please contact Jeffrey Dronzek, Business Manager, phone 401-453-2626.

To: Paul Cuffee Upper School Community
From: Jeffrey Dronzek, Business Manager
Subject: ANNUAL ASBESTOS MANAGEMENT PLAN NOTIFICATION
Date: 10-7-20

I am pleased to report that any and all hazardous material that was identified in the hazardous material survey conducted prior to the renovation of this building in 1993 has been abated or encapsulated.

A licensed abatement contractor removed and properly disposed of all asbestos containing material that was identified, and further either removed from the site or covered existing surfaces with new material to completely encapsulate any identified lead in the building.

Certification that all new construction was free of either asbestos or lead or any other known hazardous substances was provided to the Providence School Department.

All previous Asbestos Management Plans and re-inspection records are kept on file at the school location and in the school's administrative office.

If you have any questions, please contact me at 453-2626.
